Portfolio & Projects

I have a strong analytical background in Data Analytics and currently serve as a Classroom Manager for the AI for Data Analytics program, while also working as a freelance Data Analyst for RevoU. I am passionate about leveraging data to uncover meaningful insights and continuously developing my technical and analytical expertise in the field of Data Analytics.

Since 2022, I have mentored and led students in the Full Stack Data Analytics program at RevoU. Through this role, I've developed the ability to guide teams in analyzing complex datasets, identifying key patterns, and interpreting trends.

I am proficient in a range of tools and technologies, including Python, Google BigQuery, Tableau, PowerBI, Alteryx, Talend, and RStudio.
